We are a non-affiliated, non-profit discussion and study group which aims to raise political and social consciousness as well as to network for creative social change. We believe in the importance of culture, individuality, and moral integrity as well as in the dignity, value, and liberty of each person. Our motto is 'We serve truth, not consensus.'

We uphold the ancient values of the Western world: Honour, Chivalry, Service, & Nobility. We know that the sovereignty of the individual is the nemesis of all tyranny - the sanctity of conscience our final court of appeal and the sacredness of human life our final protection. We are one of the few organisations in Australia which makes the survival of Western civilisation its primary aim.
